PROFESSIONAL SUMMARY

Senior Software Engineer with 8+ years of experience in software engineering, design and development, skilled in Agile methodologies, SDLC and technical design with a focus on accessibility, system design, and performance optimization. Experienced in mentoring teams, leveraging multiple programming languages, and applying software engineering skills to build robust and scalable solutions.

TECHNICAL SKILLS

Angular | React | Redux | Node.js | JavaScript | TypeScript | Python | HTML5 | CSS3 | CSS pre-processor(SASS) | Bootstrap | Tailwind | Material UI | jQuery | Git | NPM, Yarn | Jest | Puppeteer | Test Driven Development | Jasmine | MongoDB | DynamoDB | AWS (S3, Cloud-Formation, CloudWatch, API Gateway, Secrets Manager), Azure | CI/CD | Jenkins | nginx

CERTIFICATIONS

AWS Certified Cloud Practitioner

WORK EXPERIENCE

Senior Software Engineer

IBM India Pvt Limited, Pune India

May 2022 – Present

- Developed modular and scalable Angular components reducing redundancy and cutting feature delivery time by 20%.
- Improved app performance by 35% through lazy loading, route-level code splitting, and resource optimization, applying performance optimization techniques and ensuring responsive design and cross-browser compatibility.
- Partnered with UI-UX teams to deliver WCAG 2.1 compliant user interface, enhancing accessibility for thousands of users and demonstrating a customer focused approach.
- Deployed solutions on Azure, collaborating across distributed Agile teams and integrating UI with backend systems and microservices.

Application developer

IBM India Pvt Limited, Pune India

Sep 2021 – May 2022

- Developed REST APIs using Node.js and TypeScript, integrating AWS services such as S3, IAM, and Secrets Manager ensuring secure and scalable application architecture.
- Automated infrastructure provisioning using CloudFormation, reducing setup time from 2 days to 3 hours, accelerating project delivery timelines and demonstrating proficiency in AWS.
- Implemented CloudWatch monitoring and alerts for application health, enabling proactive resolution and improving system uptime.
- Provided leadership, fostered collaboration, and mentored teams toward excellence, innovation, and continuous improvement.

Software Engineer

Infosys Limited, Pune India.

Feb 2018 – Sep 2021

- Modernized legacy web portals into Angular single-page applications (SPAs), improving load times and responsiveness by 20%
- Delivered pixel-perfect, accessible user interface implementations using Figma, boosting customer satisfaction by 15%.
- Coordinated with cross-functional teams to implement scalable, high-performance solutions with 99.9% service uptime, utilizing responsive design techniques.

System Engineer

Infosys Limited, Pune India.

Jan 2017- Feb 2018

- Developed REST APIs and backend integrations to support scalable web applications, focusing on performance and reliability.
- Optimized backend services to maintain 99.9% uptime, contributing to seamless application operations and assisted in troubleshooting critical production issues.

EDUCATION

- Master of Technology in Electronics and Communication Engineering | Dr. APJ Abdul Kalam Technical University, Lucknow, India | June 2014 – 10 December 2016.
- Bachelor of Technology in Electronics and Communication Engineering | Dr. APJ Abdul Kalam Technical University, Lucknow, India | August 2009 - July 2013.

PROJECTS

- **DevLink (React, Node.js, MongoDB, AWS , GPT APIs)**: Designed and built a full-stack networking platform for developers with real-time chat and an AI-powered bio generator. Deployed on AWS demonstrating full stack capabilities and Microservices architecture. [Link](#)
- **NetGPT (React, GPT APIs)**: Created an AI-driven movie recommendation app that suggests personalized films based on preferences. Implemented GPT integration for movie recommendations, improving user engagement and exploring emerging technologies. [Link](#)
